Data Process

- A data collection and validation process was developed by the Nominations Committee and presented to the ABI Board for input and approval.
- It was decided that all votes would be entered into a password protected database managed and monitored by ABI Nominations Director, Melanie Penoyer.
- Mailed, scanned and onsite ballots were entered into the database by Melanie.
- ABI Database Director, Amber Perkins Neal provided Melanie with a member file containing:
 - ABI Membership ID
 - Name
 - Email address
- Voting closed at 8 PM on May 23.
- Remaining mailed, scanned and onsite ballots were entered into the database by Melanie.
- All participants with a valid email address received a confirmation email with the details of their specific vote.
- The voting database was downloaded and validated against the member file using a match/unmatch query.
- Duplicate and unmatched ABI Membership IDs and email addresses were investigated further by looking each member up in the member file.
- 13 votes could not be validated, but would not have changed the outcome of the election.
- Votes were counted by using the pivot tables included in this report.
- Winners were assessed by simple majority.
- The results of the election were presented to the ABI President and an email was sent to the ABI Board.
- The candidates were notified of the elections results.
- Results were announced at the ABI Banquet on May 24.

- The election data and results have been reviewed and ratified by Kathy Strickland Rankin, DH 87 and Christy Davidson Cox, DH 87.
- To conclude the process, a Nominations Report was developed and posted online.
