Festival Coordinator:

The success of tonight's Music and Art Festival is the result of the splendid cooperation that has been extended to the Najmah School by the residents and employees of Ras Tanura. We sincerely appreciate the fine attitude on the part of families who opened their homes to our guests. This enabled us to increase our rehearsal time and permit our participants to work relaxed. The help provided by Region II was invaluable, and the efforts of Communications has made the program more enjoyable for everyone. It has been a pleasure to bring to our community an event that will be remembered by all.

R. K. KENNEDY, Principal
Najmah School
